Quality Folios  
For The Music Industry

**Why Choose Deer River Folio?**

**We take great pride in the folios we manufacture.** For more than 40 years we've been the leader in the music folio business. We're located in the heart of the USA in Minnesota's Beautiful Northwoods, just next to the Mississippi River - and because of that we use only environmentally safe materials in our folios. Our products are built strong to take the daily punishment that especially schools can put music folders through. We hope you like the products we offer and always welcome your input and comments.

**The Black Folder**

**The Black Folder** - The Black Folder was originally designed for the Los Angeles Master Chorale. Singing with The Black Folder is so easy. The design allows singers to hold their music up better, follow their directors better and give better performances. Handcrafted of leatherette with a pressboard lining.

The Black Folder offers numerous advantages over other folios. All seams and edges are leatherette finished. Along with expanding pockets and reinforced brass corners, The Black Folder comes loaded with extras. The aluminum hinge, mounted with brass rivets for durability, is installed with 10 elastic cords for holding music in place for stability. A cross-strap is installed across the bottom of the folder to keep loose music from slipping out. The cross-strap is available in the fastened type or the detachable button strap. The detachable button strap allows the director to open The Black Folder totally. The hand-strap across the back of the spine allows the singer to hold the folder in a comfortable position without sliding. The Black Folder also comes with a pencil loop.

The dimensions of The Black Folder are: 10 1/16" x 12 1/2".
